The most beautiful PVC flooring can be found at Woonmode!

Are you looking for a beautiful, comfortable, sustainable and Low-maintenance floor? A 100% waterproof floor, which is ideal for underfloor heating and provides pleasant acoustics in your home? Then a PVC floor is the best choice for you!

PVC floors are available in two variants: fully glued or with a click connection. For newly build homes with underfloor heating glued PVC flooring is used most often, because these floors are best for allowing the heat to pass through. An additional advantage is that glued floors create very pleasant acoustics in a room.

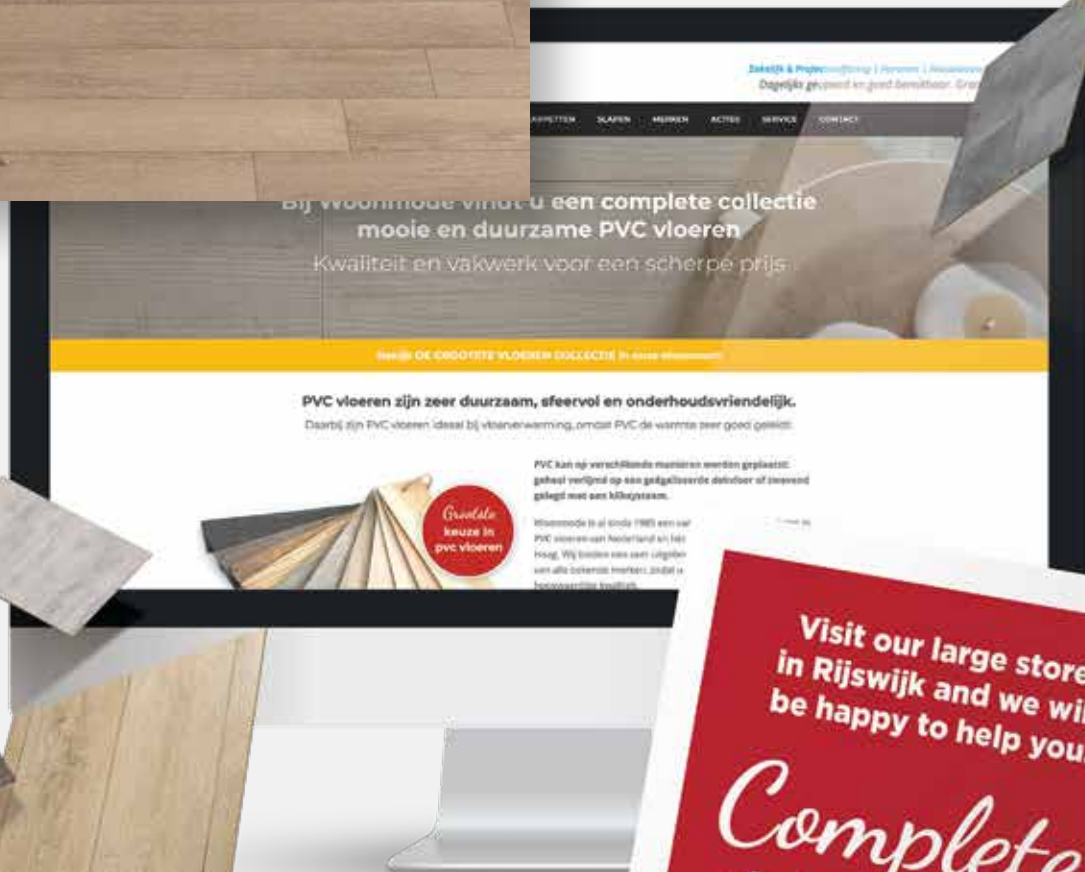

PVC floors with a click connection are often used for existing homes. The advantage of these floors is that in that case, the screed does not need to be levelled and the room does not have to be emptied to clean the floor to be able to place it.

ALL LEADING BRANDS

In the Woonmode store in Rijswijk you will find a large collection of PVC flooring from all leading brands and manufacturers, such as Therdex, Quick-Step, Moduleo, Ambiant, Riviera and Tarkett.
